Among cancers that affect both men and women combined, Colorectal Cancer is the second leading cause of cancer deaths in the United States.

March is Colorectal Cancer Awareness Month

If you are 50 or older, consider a Fecal Immunochemical Test or FIT test. A FIT test is a noninvasive test that can be done in the comfort of your own home. The test checks for blood that may not be visible to the naked eye. Blood in the stool maybe an early sign of colon cancer.

Get Screened in the Month of March at All NorthShore Locations for a \$0 Co-pay with most insurance plans or \$25 for uninsured patients.

NORTHSTAR DIGITAL LITERACY PROGRAM

WHAT IS NORTHSTAR DIGITAL LITERACY?

The Northstar Digital Literacy Project defines basic skills needed to perform tasks on computers and online. The ability of adults to perform these tasks can be assessed through online, self-guided modules.

Included are basic computer digital literacy standards and modules in ten main areas: Basic Computer Use, Internet, Windows Operating System, Mac OS, Email, Microsoft Word, Social Media, Microsoft Excel, Microsoft PowerPoint, and Information Literacy.

Northstar is an assessment, not a curriculum. When individuals pass the assessments at approved sites, they can obtain the Northstar Digital Literacy Certificate. This provides a credential for employment. There is no cost to complete the online assessments.
