NORTHSTAR DIGITAL LITERACY PROGRAM

WHAT IS NORTHSTAR DIGITAL LITERACY?

The Northstar Digital Literacy Project defines basic skills needed to perform tasks on computers and online. The ability of adults to perform these tasks can be assessed through online, self-guided modules.

Included are basic computer digital literacy standards and modules in ten main areas: Basic Computer Use, Internet, Windows Operating System, Mac OS, Email, Microsoft Word, Social Media, Microsoft Excel, Microsoft PowerPoint, and Information Literacy.

Northstar is an assessment, not a curriculum. When individuals pass the assessments at approved sites, they can obtain the Northstar Digital Literacy Certificate. This provides a credential for employment. There is no cost to complete the online assessments.
